

*National  
Waste Minimization  
Partnership Program*

**GENERAL INFORMATION**

Company Name: American Video Glass  
Facility Location: 777 Technology Drive  
Mount Pleasant, PA 15666

**GOAL DEVELOPMENT** - Our initial voluntary goals for reducing and/or recycling chemicals found in our hazardous wastes are shown below. Since these goals are estimates, we may choose to revise these goals as our projects proceed. If/when we find the need to revise our goals, we will notify EPA.

**Chemical #1:** **CASRN:**

**Narrative description of proposed project:**

Reduce the amount of waste batch disposed as a hazardous waste by 25% per unit of production (pounds of batch delivered). 94,220 pounds of waste batch were disposed in FY'01

1. Our voluntary source reduction goal is to reduce the amount of this chemical generated in hazardous waste from a baseline of 94,220 (X pounds generated/year) to a reduced amount of 70,665, (X pounds generated year) between \_\_\_\_\_ (month/year) and \_\_\_\_\_ (month/year).

2. To accomplish this goal, we will explore the following source reduction : (Check all that apply)

<input type="checkbox"/> Equipment or technology modifications	<input type="checkbox"/> Process or procedure modifications
<input type="checkbox"/> Reformulation or redesign of products	<input type="checkbox"/> Substitution of less toxic raw materials
<input type="checkbox"/> Improvements in inventory control	<input type="checkbox"/> Improvements in maintenance/housekeeping practices
<input type="checkbox"/> Other (explain): _____	

3. Our (optional) voluntary recycling goal for this chemical is to increase the pounds of this chemical recycled from \_\_\_\_\_ (X lbs/year) to \_\_\_\_\_ (X lbs/year), for a total recycled quantity of \_\_\_\_\_ (X lbs/year) between \_\_\_\_\_ (month/year) and \_\_\_\_\_ (month/year).

4. To accomplish this recycling goal, we will explore: (check all that apply)

<input type="checkbox"/>	Direct use/reuse in a process to make a product
<input type="checkbox"/>	Process the waste to recover or regenerate a usable product
<input type="checkbox"/>	Use/reuse as a substitute for a commercial product
<input type="checkbox"/>	Other (explain): _____
